

# Radu Giuran

## Full Stack Developer

### PROFESSIONAL SUMMARY

- Currently working part-time as a trainer assistant, teaching Html, Css, JavaScript, React, Node.js and MongoDB. Additionally, I run a small business in my native city.
- As a Full Stack Developer and proud graduate of NewTech Academy, my background in both web development and transport management equips me with a unique blend of technical and organizational skills for the tech world.
- I am serious about my work, punctual, and hardworking, always pushing the boundaries of what I can achieve in the tech sphere.
- Fluent in Romanian and English, and a little French, I am comfortable working in diverse environments and am eager to collaborate with people from different backgrounds.

### WORK HISTORY

2024 - present

*NewTech Academy*

Trainer Assistant

I currently work part-time as a trainer assistant, teaching JavaScript, React, Node.js, MongoDB, HTML, and CSS. I am responsible for giving our students tasks, helping to solve them, and managing our GitHub repository.

2022 - present

*Radyus Team*

Manager

I own a small business specializing in personal transportation.

2019 - 2022

*Geryus Express*

Transport Manager

Coordinating the movement of goods or passengers from one place to another efficiently and cost-effectively. Managing the company's vehicles, including acquisition, maintenance, scheduling, and disposal. Developing and managing budgets for transportation operations, monitoring expenses, and finding ways to reduce costs.

2015 - 2017

*Manet Pc Shop*

Computer Technician

Diagnose hardware and software issues on computers and laptops. Install and configure operating systems, software applications, and drivers. Document all repairs, maintenance tasks, and client interactions accurately.
