Radu Giuran

Full Stack Developer

PROFESSIONAL SUMMARY

- Current Role: **Full-Stack Developer (PrestaShop / PHP / MySQL)** E-commerce oriented. Responsible for creating custom PrestaShop modules, automating product and pricing workflows, and supporting both SEO and data-driven marketing strategies.

- Current Role: part-time as a **Web Development Trainer (React / DRF / MySQL)**, teaching and mentoring students in both frontend and backend development.

- As a **Full Stack Developer** and proud graduate of NewTech Academy, my background in both web development and hardware engineering equips me with a unique blend of technical expertise and problem-solving skills for the tech world.

- I am serious about my work, punctual, and hardworking, always pushing the boundaries of what I can achieve in the tech sphere.

- Fluent in Romanian and English, and a little French, I am comfortable working in diverse environments and am eager to collaborate with people from different backgrounds.

WORK HISTORY

Poli Gun SRL
January 2025 - present
Full-Stack Developer & Web Administrator

- Designed and developed custom PrestaShop modules using PHP and Smarty, extending platform functionality to meet specific business needs and streamline internal workflows.
- Developed backend automation with PHP scripts and scheduled cron jobs to synchronize product stock and pricing information with external suppliers.
- Collaborated with marketing and management teams to define scalable e-commerce solutions and deploy new features in alignment with business needs.
- Customized and enhanced the frontend design using Bootstrap, CSS, and responsive layouts to ensure a consistent and engaging user experience across all devices.
- Managed Google Merchant Center integrations and optimized SEO and advertising pipelines, resulting in higher product visibility and improved conversion rates.

Technologies: PHP, Smarty, Bootstrap, MySQL, GMC, PrestaShop

Secret Code
Feb 2024 - January 2025
React Frontend Developer

- Engineered and optimized scalable web applications using React, TypeScript, and Adobe Experience Manager (AEM).
- Built reusable UI components and streamlined authoring workflows for content creators, enhancing page delivery speed and maintainability.
- Collaborated with backend developers and QA engineers to ensure seamless data flow and quality through unit testing and Git-based workflows.
- Focused on performance, accessibility, and modular design using TailwindCSS and Material UI.

Technologies: React, Node.Js, TypeScript, Redux, Tailwind CSS, Material UI, Firebase, Adobe Experience Manager (AEM), Bitbucket, Jira, Confluence.

NewTech Academy
Oct 2023 - present
Web Development Trainer

- Taught students frontend development using JavaScript, React, and Firebase, focusing on component architecture, data handling, and responsive UI design.
- Introduced backend development with Python, Django REST Framework (DRF), and MySQL, guiding students through API design, authentication, and database modeling.
- Supported students in designing, debugging, and deploying full-stack applications using Git, Agile, and modern software engineering practices.
- Encouraged best practices in code organization, architecture, and version control for real-world collaboration and project scalability.

Technologies: React, TypeScript, Python, Django REST Framework, MySQL

May 2022 - Oct 2023
Full-stack Developer

- Developed full-stack web applications using Angular, Node.js, MongoDB, RxJS, and Firebase.
- Applied reactive programming principles to manage real-time data synchronization between frontend and backend layers.
- Implemented clean architecture and modular design for improved scalability and maintainability.

EDUCATION

Full Stack Developer Trainee, 07.2022 - 10.2023
NewTech Academy - Bucharest, Bucuresti

Introduction in IT , 09.2018 - 03.2019
Scoala Informala IT - Craiova, jud. Dolj

Law & Jurisprudence, 10.2011 - 05.2015
Universitatea „Spiru Haret" - Râmnicu Vâlcea, Valcea

SNIPPETS

Currently expanding my skill set by learning **Django & Python** to meet job requirements, focusing on building server-rendered applications.

Completed Udemy courses:

- The Complete JavaScript Course: From Zero to Expert (Jonas Schmedtmann)
- Node.js, Express, MongoDB & More: The Complete Bootcamp (Jonas Schmedtmann)
- The Ultimate React Course: React, Next.js, Redux (Jonas Schmedtmann)
- Angular - The complete guide (Max Schwarzmuller)
- JavaScript Unit Testing (Max Schwarzmuller)
- Next.js 15 & React - The Complete Guide (Max Schwarzmuller)
- Mastering Angular 16 - Procademy
- A complete NODE JS Course Step by step - Procademy
- React Course - Procademy
- Adobe Experience Manager (Nimith Shetty)
- Mastering TypeScript (Colt Steele)
- Python Django: Build an E-commerce Store (Arno Pretorius)
