SKILLS

- React | Redux Toolkit
- Angular | RxJS
- Node.js | Express.js
- JavaScript | TypeScript
- HTML | CSS | Tailwind | Bootstrap
- Firebase | MySQL | MongoDB
- Git | Confluence | Jira | BitBucket
- PrestaShop | PHP | Smarty

PROFESSIONAL SUMMARY

- Current Role: **E-commerce Developer & Web Administrator**, responsible for creating custom Prestashop modules, automating product and pricing workflows, and supporting both SEO and data-driven marketing strategies.

- Current Role: part-time as an **IT trainer assistant**, teaching other students HTML, CSS, JavaScript, TypeScript, React, Node.js and MongoDB. I help them fulfill their tasks and I handle the repository, guide students in managing branches, and ensure smooth collaboration through Git

- As a **Full Stack Developer** and proud graduate of NewTech Academy, my background in both web development and hardware engineering equips me with a unique blend of technical expertise and problem-solving skills for the tech world.

- I am serious about my work, punctual, and hardworking, always pushing the boundaries of what I can achieve in the tech sphere.

- Fluent in Romanian and English, and a little French, I am comfortable working in diverse environments and am eager to collaborate with people from different backgrounds.

WORK HISTORY

January 2025 - present
POLI GUN SRL
Web Developer & Web Administrator
In my current role, I develop custom _PrestaShop modules_ from scratch, integrate them into the platform, and ensure they meet specific business needs.

I also manage product editing and additions, enhance visual appeal using CSS and Bootstrap, and handle database operations such as bulk product updates, price modifications, and exporting product lists for partners.

Additionally, I perform cPanel backups, resolve technical issues promptly, manage scheduled tasks using cron jobs, and handle on-site SEO as well as paid advertising campaigns to boost visibility and sales. I help streamline workflows and support the growth of online businesses.

May 2024 - January 2025
Secret Code
Frontend Developer
Worked on an internal product, educational platform aimed for developers.
Created multiple user interfaces for websites/applications, created modular components, optimized dataflow and load times, integration with backend.
Technologies: React, TypeScript, JavaScript, Redux, HTML, CSS, SCSS, TailwindCSS, MaterialUi, NodeJs, ExpressJs, MongoDB, Firebase, AEM (Adobe Experience Manager), Git.

Oct 2023 - present
NewTech Academy
IT Trainer Assistant
I currently work part-time as a trainer assistant, teaching JavaScript, React, Node.js, MongoDB, HTML, and CSS. I am responsible for giving our students tasks, helping to solve them, and managing our GitHub repository.

March 2022 - present
Radyus Team
Manager
Owner of a small business specializing in providing freelance software development services, delivering tailored solutions to clients across various industries.

Feb 2019 - Feb 2022
Geryus Express
Transport Manager
Coordinating the movement of goods or passengers from one place to another efficiently and cost-effectively. Managing the company's vehicles, including acquisition, maintenance, scheduling, and disposal. Developing and managing budgets for transportation operations, monitoring expenses, and finding ways to reduce costs.

Sept 2015 - June 2017
Manet Pc Shop
Computer Technician
Diagnose hardware and software issues on computers and laptops. Install and configure operating systems, software applications, and drivers. Document all repairs, maintenance tasks, and client interactions accurately.
